Our Company

Loadmaster Industries is a diversified manufacturing, engineering, design, and field services company with 30 years of experience in the global energy and industrial markets. Our mission is to provide valuable turnkey solutions for our clients in a culture where employees' and shareholders' goals are achieved with a focus on Quality, Health, Safety, and the Environment.

Our Mission Statement

To be recognized by our clients as an unassailable and trusted provider of valuable turnkey solutions around the world which meet or exceed expectations, while driving continuous improvement in all work processes through a culture of honesty, integrity and teamwork.

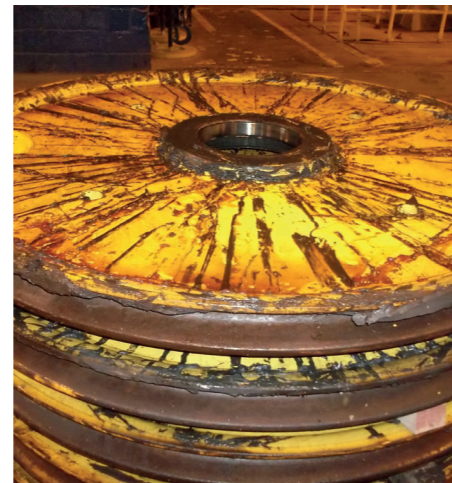

Loadmaster Field Service Team

Loadmaster has more than 34 years of field service experience. All jobs are coordinated, supervised and managed by our highly skilled and experienced senior field team.

LMI's Field Service Department has a base of certified Multi-Disciplined Rope Access Technicians located and operational worldwide.

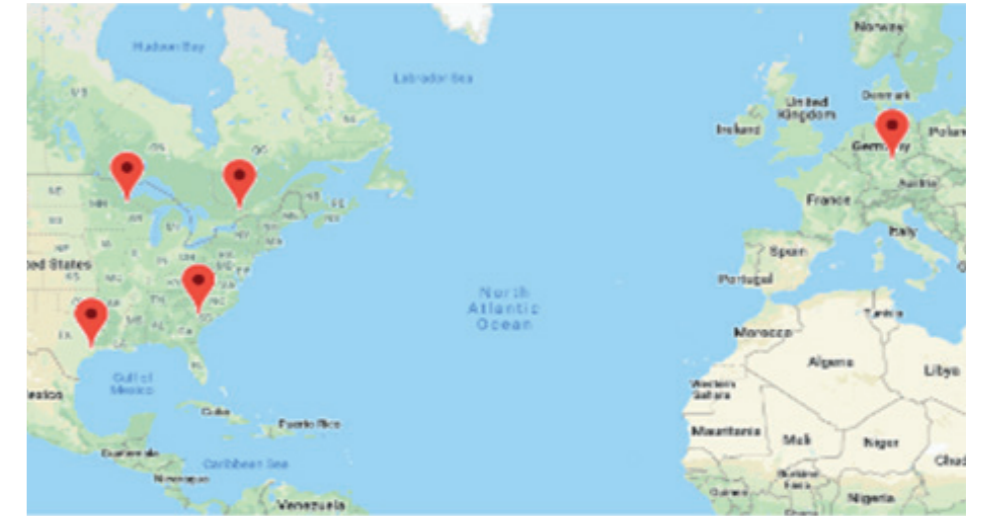

Our Field Service members are trained that Safety Comes First and Safety by Design.

Our Field Service Team Members are highly trained in industry standard safety practices: trained in best of work at height practices, Fall Protection, 100% tie-off, DROPS, Rope Access, Rescue Operations, BOISET, Rigging, etc... which helps produce cost efficient execution for field projects.

AIM Software Platform

Loadmaster Industries' Asset Integrity Management Software System ensures required inspection processes are executed in order to maintain assets operational capacity with a focus on safety for the personnel utilizing the asset throughout its lifecycle.

LMI's- AIM Software Platform:

Our team uses an advanced software system to perform standard or custom inspection processes.

- CLP Inspections
- DROPS Inspections
- Lifting Gear Inspections
- Piping Inspections
- Non-Destructive Examinations

The final goal of our experienced field inspectors is to meet the latest codes and standards, while providing real time access to data at an affordable cost to our customers with safety paramount.
